

## **CONDITIONS OF WARRANTY FOR FORMANI® PRODUCTS**

Formani guarantees the reliability of its supplied products, in conformity with what can be reasonably expected by the client under the terms of the contract. If the product has clearly demonstrable defects or factory errors, Formani will, at its own discretion, have the product repaired or replaced, or offer a reduction in price. This warranty is valid for a period of 5 years from the date of delivery, unless expressly agreed otherwise in writing.

This warranty does not cover defects which are in any way attributable to normal wear and tear, improper use, a failure to follow instructions or comply with regulations, usage by a third party, repairs/installation carried out by a third party or by the client without Formani's written permission, or products custom-made to the client's instructions/designs.

A warranty against scratches is not possible, as door mountings are designed for everyday use. Door mountings are not designed to withstand vandalism or intensive use.
